PREPARATION FOR EXTERMINATION OF INDIAN MEAL MOTHS

(Stored Food Product Pests)

Kitchen:

Remove everything from your kitchen except furniture and large appliances; this includes food, pots, pans, dishes and miscellaneous items. Do not place items on counter tops, refrigerator, or stove. Put items on a bed or table and cover with a sheet or blanket. All surfaces should be cleaned before treatment. Throw out all dry goods even if the package or box has not been opened.

Bathrooms:

Remove everything from cabinets and closets. Put on a bed or table and cover. All surfaces should be cleaned before treatment.

Closets:

Remove everything from closets and place on a bed. Remove all shoes, etc. from closet floors. Covering is optional.

Linen Closets:

(Desirable but not mandatory) Remove linens from closets and place on bed.

Please do not wash down cupboards or floors after extermination. You can wash down counter tops however and mop floors after 3 days or so.

This is a residual spraying process.

OCCUPANTS AS WELL AS ANY DOMESTIC ANIMALS NEED TO BE OUT UNTIL THE PRODUCT IS COMPLETELY DRY (USUALLY 3 TO 4 HOURS). FISH TANKS HAVE TO BE UNPLUGGED AND COVERED UNTIL YOU RETURN. ADDITIONAL FEES COULD BE INCURRED IF WE NEED TO RETURN BECAUSE THIS WAS NOT DONE. FURTHERMORE WE WILL NOT BE RESPONSIBLE FOR ANY DAMAGE TO THE FISH TANKS THAT MIGHT BE INCURRED IF WE HAVE TO UNPLUG AND COVER THE FISH TANK.

BIRDS MUST BE OUT FOR 24 HOURS !!!!

*Thank you,
